As with all things in life, one must be prepared for conflict; pesky insects are bust'n out all over in the month of June

Rogers and Hammerstein gave us the glorious song “June is Bustn’ Out All Over” in 1945 when their collaborative musical “Carousel,” based on Ferenc Molnar’s 1947 story of love, conflict, betrayal and forgiveness became an international hit.

Certainly the word “busting” describes the stunning dynamics of change going about before us on our beautiful Blue Planet during the month of June.

...
“But it’s coming’, by gum
Y’ken feel it come,
Y’ken feel it in yer heart.
Y’ken see it in the ground!”

....
The flowers are bustin’ from their seed!”

...
“Just because it’s June-
June-June!”
